PLEASE NOTICE

Orders at prices in this catalog will be filled only for those engaged in the florist, landscape gardening and market gardening business, or others entitled to such prices. We reserve the right to refuse to fill orders for others not entitled to these prices.

As a protection to our customers who are entitled to wholesale or florists' prices we ask that they do not lend this catalog to persons not entitled thereto. It will save us considerable embarrassment. Tell them to send for our "Seed Book"—Free upon request.

NOTICE TO CUSTOMERS OUTSIDE OF THE UNITED STATES

In remitting for purchases at the time of ordering, or when paying accounts, by reason of the Exchange we ask that you please send P. O. Money order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in par U. S. Funds.

WE ESPECIALLY INVITE CHARGE ACCOUNTS

A charge account is more convenient than to remit for each order at the time it is sent us; you pay no more for your goods by reason of this accommodation. As to our responsibility, we refer you to **Dun's or Bradstreet's Mercantile Agency** or any bank or trust company.

When sending your first charge order, refer preferably to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

DISCOUNTS

On bills for Flower Seeds, Vegetable Seeds and Bulbs, a discount of 2% for payment 10 days from date of bill may be deducted; 5% cash discount is allowed on all orders of Flower Seeds and 3% cash discount on all orders of Vegetable Seeds and Bulbs when remittance accompanies the order, unless on items specially quoted or priced. Cash discount above does not apply to dealers orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

SPECIAL NOTICE.—We prepay postage free on all Flower and Vegetable Seeds offered in this Catalog, except on Peas, Beans, Corn and such other items as may be noted. We do not prepay free postage on Plants, Bulbs, Sundries, Tools, etc., nor do we prepay free any items on which we may have quoted special prices. All postage is charged on dealers orders regardless of items ordered.

PARCEL POST RATES.—On Seeds, Bulbs, Plants or Roots not exceeding eight (8) ounces in weight, the postage charge is 1c. for each two (2) ounces or fraction thereof; on sundries or other merchandise not exceeding eight (8) ounces in weight, the postage charge is 1½c. for each two (2) ounces or fraction thereof. Seeds, Bulbs, Plants, Roots, Sundries, etc. weighing over eight (8) ounces, are sent at zone rates.

If Special Delivery is wanted an additional 15c. is required on packages weighing up to two (2) pounds—25c. on packages weighing more than two (2) pounds and up to ten (10) pounds—35c. on packages weighing more than ten (10) pounds, which also includes special handling and transportation as first-class mail.

If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

We do not make shipments of Plants or Cold Storage Bulbs C. O. D., and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

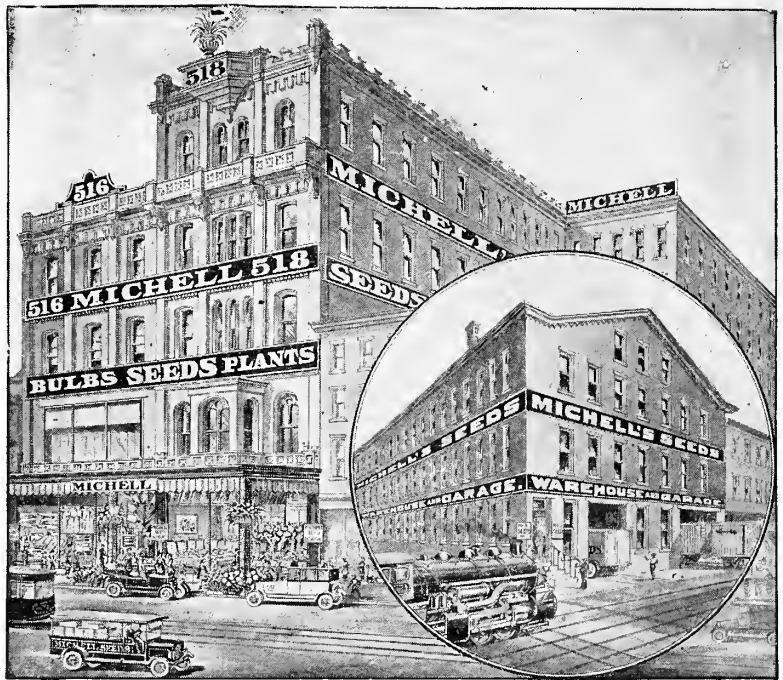

IMPORTANT NOTICE.—All shipments of plants, perishable stock and cold storage bulbs are made at buyers' risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the actual arrival of goods (except at points where there is no freight or express agent), will still be continued, and claims for loss or non-arrival of merchandise not perishable will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

CONDITIONS OF SALES

All contracts, sales and acknowledgments of orders are contingent upon crop failures, our ability to import and make deliveries in conformity with the "Plant Quarantine Act," partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order. Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods.

Please note parcel post charges quoted by us are for delivery in the United States only.

MICHELL'S SUPERB ASTERS

We wish to emphasize the fact that our Asters are grown for us by specialists, and nearly all varieties under our own supervision. **Michell's "Distinctive" Quality** is nowhere more prominent than with our Asters, and we can recommend them with the utmost confidence to produce the very best results. Our seed is grown from plants which are free from disease.

SPECIAL NOTE.—In growing Asters, old soil and flats should never be used the second time without thoroughly sterilizing, to avoid the numerous diseases to which Asters are so susceptible; barnyard manure should never be employed as a fertilizer; we recommend the use of finely ground bone meal. Asters should not be grown in the same location two years in succession.

New York or Wonderful Lettuce

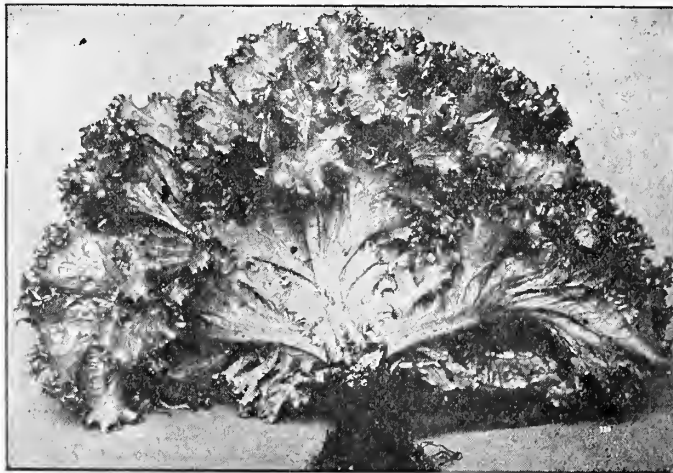

New York, or Wonderful. This lettuce has for several years been in great demand, especially during the late winter and early spring months; its gigantic heads when the outer leaves are removed are almost white, very solid and without any trace of bitter taste. It does best in the latitude of Philadelphia as an early spring and a late autumn crop. A variety seen on the markets in Philadelphia and New York. We offer a fine strain of seed, selected from specimen heads. 25c. per oz.; $\frac{1}{4}$ lb., 75c.; \$2.50 per lb.

One ounce of seed will produce about 2500 plants.

HEADING VARIETIES

We pay particular attention to the seed stock, therefore offer a strain of especial merit. 15c. per oz.; $\frac{1}{4}$ lb., 50c.; \$1.75 per lb.
- Silesian.** This variety should be cut instead of pulled, as it makes new growth from the same root. A light green color, and when given plenty of room will form a large loose head. 15c. per oz.; $\frac{1}{4}$ lb., 45c.; \$1.50 per lb.

COS, ROMAINE, OR CELERY LETTUCE

Of French origin, this type differs greatly from the American varieties by its peculiar upright growth. To have it tender the heads must be tied together at the top so that the inner leaves blanch. It is best adapted to outdoor planting and stands the heat well. The Romaine lettuces sell readily to most all trade and should be grown more generally by market gardeners.

Kingsholm Cos. The largest and best heading variety of this type. The inner leaves blanch almost pure white and have little or no rib; the heads are very full throughout and therefore contain more edible part. 20c. per oz.; $\frac{1}{4}$ lb., 60c.; \$2.00 per lb.

MICHELL'S RECLEANED GRASS SEEDS

Our connections with the best grass seed producers in America and Europe place us in a position of advantage for our supplies, chiefly because of the great volume of grass seeds we contract for. Some people have an idea that price is the only factor to consider in grass seed buying; while this has its place, it should be an after thought. "Quality is paramount." We are always pleased to submit samples with prices for comparison and let our customers be the judge.

QUANTITY OF LAWN SEED REQUIRED FOR A GIVEN SPACE

To secure best results we advise sowing on new ground with no sod on, 6 to 8 bushels of 20 lbs. per bushel to an acre; on established lawns or grass plots usually one half the quantity is sufficient. On a smaller scale, 1 quart per 100 square feet; 1 peck for 1000 square feet; ½ bushel for 2000 square feet; 1 bushel for 4000 square feet; for putting greens we advise 100 lbs. of seed to a green 100 x 100 feet; for fairways 8 to 10 bushels (20 lbs. per bu.) to the acre; for pastures and hayfields 80 to 100 lbs. per acre.

If Mixed Grass Seeds are wanted by Parcel Post, add for postage as follows: 10c. for 2 qts.; 10 cts. for 4 qts.; 15c. per peck; 20c. per ½ bu.; 35c. per bu.; larger quantities by express or freight.

MICHELL'S HARDY PERENNIAL PLANTS

Prices quoted are for extra strong one-year-old field roots, **not** Seedlings. Not less than 25 of any one variety at 100 rate. **No** Order accepted for less than 10 of any variety, except where noted.

An investment in Perennials is most profitable. We send out strong field grown plants, which will give splendid results the first season. Perennials bloom at a time of year, when greenhouse cut flowers are scarce. Grow your own supply.

This illustration proves what beautiful effects can be produced with perennial flowers in combination with Hardy Lilies. Similar effects can be produced by using Gladiolus with the perennial flowers.

IMPORTANT—PLEASE READ: Perennial Flowers are now classed as outstanding cut flowers. You can have flowers on hand during Summer and Autumn for making Sprays, Wreaths, Baskets (see illustration) and even Wedding bouquets.

Last Autumn perennials produced flowers, when all other cut flowers were hardly obtainable, and they brought top-notch prices. If you are not familiar with some of the varieties listed, we will be pleased to give you more information. **Others are making a big profit by growing Perennials—so can you.**

BUDDLEIA (Butterfly Bush)

Variabilis Magnifica. This is perhaps the most popular of our Hardy Shrubs, and as an outdoor summer cutflower it is most profitable. A 3-inch pot plant will bloom profusely the first season and develop into a large bush. The long flower spikes are made up of numerous small florets somewhat on the order of a Lilac, and keep well in water. The color is a beautiful shade of lilac shading to lavender, while the plant is a mass of bloom from June until frost. It is perfectly hardy and increases in size and vigor each season. We have prepared an excellent stock in 3-inch pots, which we offer at 6 for \$1.00; \$1.75 per doz., postpaid; 25 for \$2.75; \$10.00 per 100, by express not prepaid. Ready April 1st.

CYCLAMEN SEEDLINGS

The growing of Cyclamen is one of our specialties and the stock we send out has given our many customers every satisfaction. The seedlings are given plenty of room to develop and are carefully packed, so that when received they are ready for 2¼-inch pots. The stock we offer is grown from our Giant show strain of Seed. In separate colors. **Bright Red, Blood Red, Glory of Wandsbek, Perle of Zehlendorf, Rose of Marienthal and Salmon Scarlet** and affords the grower (who may have overlooked sowing his supply, or who may have failed therewith) to be assured of a reliable supply of choice seedlings, the purchase of which will have saved him at least five or six months' work and care.

Shipments of these can be best made by special handling, parcel post. Please add 20c. per 100 for postage, plus 15c. for special handling. Price, \$6.50 per 100; per 1000, \$60.00. Not less than 100 seedlings sold, nor less than 25 of a color.

CYCLAMEN PLANTS

2¼-inch pot plants ready March 1st, \$12.00 per 100; per 1000, \$100.00. 3-inch pot plants ready June 1st, \$20.00 per 100; per 1000, \$180.00.

Suggestions in Connection with the Growing of Hardy Lilies Under Glass

Hardy lilies should be grown cool and given 16 to 18 weeks from time of planting to bring them into bloom, so the best results can be obtained. In fact if you can give them longer to come into flower it is better. Where they are forced with plenty of heat, the result is that you get good foliage with not so many blooms early. We have particular reference to *Lilium Magnificum*, *Melpomene*, *Rubrum* and *Album*.

*Lilium Giganteum*

HARDY JAPANESE LILIES

These are a splendid proposition for the florist, they force readily in a moderate temperature, as described above. Prices are for shipment up to May 1st, and include all cold storage charges. After this date an additional 25 cents per case, per month will be made for cold storage charges.

LILY OF THE VALLEY

Bundles or Clumps (For Outdoor Use Only)

These are excellent for landscape work. Bundles contain 15 good size pips with good root growth, all of which will flower with the proper care; they are especially imported from abroad, the best of the crop being selected for us, carefully packed and can be stored in a cold cellar. These pips should not be compared with native grown stock which usually throw an average of 2 to 3 flowers to the clump; pips are washed clean and packed in peat moss thus making transportation light. We can make shipment of these as late as May 1st. Why not try a few for your trade? The Japanese Beetle quarantine does not affect the shipment of this stock. 45c. per bdl.; doz. bdls., \$4.50; \$35.00 per 100 bdls.

LILY OF THE VALLEY

We have again procured and placed in storage a generous supply which can be shipped immediately or later as wanted. Packed in the following units: 100, 250, 500, 1000 and 2500. LILIUM REGALE or MYRIOPHYLLUM

Queen of the Lilies

Royal

Lily

of

China

Unsurpassed

for

its

fragrance

ONE OF THE finest garden Lilies introduced; perfectly hardy, thriving well in any good garden soil and should find a place in every garden. A vigorous grower with sturdy stems, three to five feet high, densely covered with long lanceolate foliage, and crowned with an abundance of blooms, the number depending upon size of bulbs planted. Produces large, beautiful flowers, the center of which is flushed bright golden yellow, shading off to creamy white at outer edges; externally the flowers are streaked with brown, shading through the almost translucent petals with a delightful pearly tint, making an extraordinary beautiful contrast; the flowers last for many days after being cut. Should be planted in Fall or early Spring, eight to nine inches deep; commences flowering in July.

Lilium Regale has also been used for forcing with fairly good results and if properly handled can be grown in any good greenhouse soil, the same as is used for Lilium Giganteum. When potted up it is suggested that they be placed on top of bench, as being a stem-rooting variety it is necessary that top and root action start together, keeping them well watered and started in a temperature of 52/58 degrees. Feed from time to time with bone meal or liquid manure, gradually increasing the heat to 65/75 degrees, to produce firm flowers, allowing about ninety days time to bring into bloom. For forcing it is recommended that only larger sizes of bulbs be used, such tests having been made and fairly good results obtained.

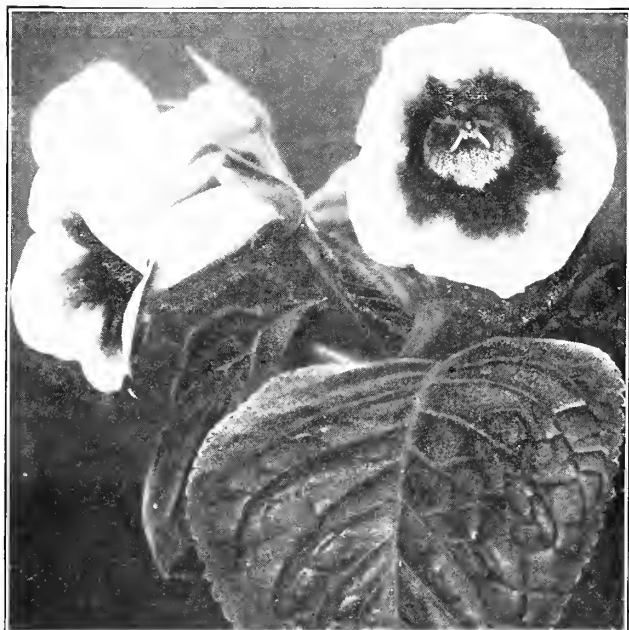

The stock we offer has been grown and produced under ideal conditions, and all bulbs supplied are of the best quality.

KIFT'S PREMIER PLANT STAND

Patent Pending

The Strongest, Most Durable and Practical Plant Stand for the Decorator

Premier Plant Stand

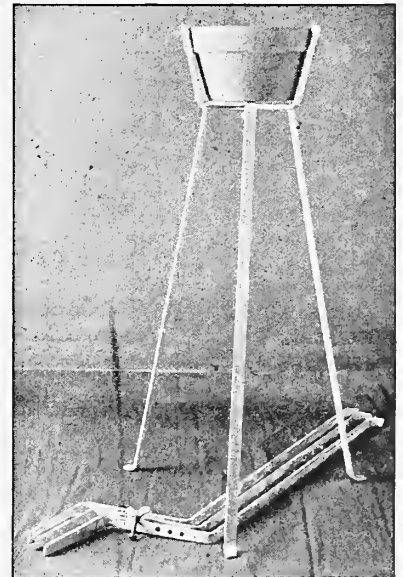

for use. All are heavily coated with palm green enamel. Sizes and prices are as follows:

12 inch.....	\$1.00 Each	30 inch.....	\$1.75 Each
18 inch.....	1.25 Each	36 inch.....	2.00 Each
24 inch.....	1.50 Each		

The Premier Plant Stand is made of steel in three sections, which, when set up, are securely held together with a bolt and wing nut, making a symmetrical triangular stand with basket top. This is capable of holding plants in from six to eight inch pots in the 12-18-24 inch heights, and 9 to 10 inch pots and tubs in the 30 to 36 inch sizes. Plants are stood erect or held securely at any desired angle. The stands are not heavy or cumbersome yet rigid and will support any decorative plants. Among other advantages to the decorator, is, that for transportation they may be stacked together, a dozen taking up no more room in the car, or truck, than two ordinary wooden pedestals. On arrival these require no setting up, being at once ready

KIFT'S PREMIER GREENHOUSE STAND

A somewhat different pattern is made for elevating plants on greenhouse benches. These are heavily galvanized and firmly held together with a brass bolt and wing nut. The use of these will add 10 per cent. to the bench space; the plants elevated making more symmetrical specimens, while the others with additional space for light and air finish in better form. In their light construction they can be placed anywhere on the bench, between plants, take up no room, cast no shadow or obstruct the

Adjustable Greenhouse Stand

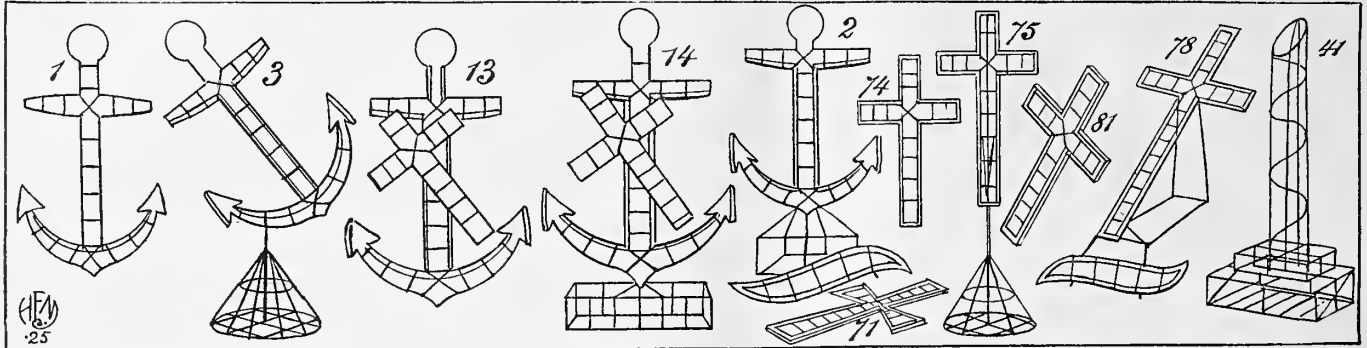

view as do the heavy wooden pedestals so commonly used. This stand is adjustable to hold 8, 9 or 10 inch pots, pans or tubs. There is but one size, elevating plants bottom of pots, 28 inches above the bench. Price, \$1.50 each; doz., \$17.00; \$125.00 per 100.
